

sdmay23-33: Detecting convoys of molecular (and atomic) trajectories

Week 2 Report

October 1 - October 7

Team MembersClaira Springer — *Developer*Jason Guo — *Developer*Daryl Kay — *Developer*Jeremy Lewis — *Developer***Summary of Progress this Report**

This week we worked with our advisor and client to narrow down all of the requirements of our project in order to come up with different features and get an idea of the overall structure of the web app.

Pending Issues

No pending issues

Plans for Upcoming Reporting Period

Our plans for the up coming period is to develop a project plan for next semester so that we have an idea on how to structure workload and sprints throughout the time frame and to get an idea of the time frame that the client would like the app to be done for testing and tweaking.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Claira Springer	Worked on the design document and also met in our weekly meeting with the client and our advisor.	5	0
Jason Guo	Worked on the design document and also met in our weekly meeting with the client and our advisor.	5	0
Daryl Kay	Worked on the design document and also met in our weekly meeting with the client and our advisor.	5	0
Jeremy Lewis	Worked on the design document and also met in our weekly meeting with the client and our advisor.	5	0

Gitlab Activity Summary

Nothing to report.
