sdmay23-33: Detecting convoys of molecular (and atomic) trajectories
Week 4 Report
October 18 - October 25

Team Members
Jeremy Davis — *Developer*
Claira Springer — *Developer*
Daryl Kay — *Developer*
Jason Guo — *Developer*

Summary of Progress this Report
Met with our advisor to gather further notes so that we could decide on what software to use for our project. Finished documents for this week.

Pending Issues
Grad students on our project have been slow to provide details on what kind of software that they need.

Plans for Upcoming Reporting Period
We plan to meet with grad students to gather information on their preferred software.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Jeremy Davis	Continued document design from last week.	4	
Claira Springer	Note taking and documentation	4	0
Daryl Kay	Further software research.	4	0
Jason Guo	Continued document design from previous period.	4	0

Gitlab Activity Summary

Nothing to report.
