

sdmay23-33: Detecting convoys of molecular (and atomic) trajectories

Week 7 Report

November 11 - November 18

Team MembersJeremy — *individual component design*Daryl — *Testing*Claira — *Administration, client interaction, project management, documentation*Jason — *Overall design***Summary of Progress this Report**

This week we got ready to begin the process of making the final design document by completing the conclusion and combining our work from the individual portions of the ethics section. We also met with the advisor and client to see if there are any last ideas or requests.

Pending Issues

No pending issues.

Plans for Upcoming Reporting Period

We plan to work on the rest of the document and look to combine all of the semesters work into the design document template provided.

Individual Contributions

Team Member	Contribution	Weekly Hours	Total Hours
Jeremy	Worked on the design document conclusion and met with the advisor and client to discuss our final plans.	4
